Independent Auditors' Report

The Governing Board
Alameda Corridor Transportation Authority:

We have audited the accompanying basic financial statements of the Alameda Corridor Transportation Authority (the Authority) as of and for the years ended June 30, 2010 and 2009, as listed in the accompanying table of contents. These basic financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these basic financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Alameda Corridor Transportation Authority as of June 30, 2010 and 2009, and the changes in its financial position and its cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 3, 2010, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Management's discussion and analysis on pages 3 through 9 and the schedule of funding progress on pages 39 and 40 are not required parts of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Management's Discussion and Analysis

June 30, 2010 and 2009

Description of Basic Financial Statements

The Alameda Corridor Transportation Authority (the Authority) presents its basic financial statements using the economic resources measurement focus and full accrual basis of accounting. The Authority's basic financial statements include a balance sheets; statements of revenues, expenses, and changes in net assets; and statements of cash flows. The basic financial statements also include notes that explain the information presented in the basic financial statements.

Financial Highlights

The assets of the Authority exceeded its liabilities (net assets) at June 30, 2010 and 2009 by \$123,854,033 and \$182,136,459, respectively. Of this amount, \$409,705,122 and \$395,343,921, respectively, are invested in the Authority's capital assets, net of related debt, at June 30, 2010 and 2009. The Authority's net assets decreased by \$58,282,426 and \$53,514,058 in the years ended June 30, 2010 and 2009, respectively.

The 2009 and 2010 fiscal years marked the seventh and eighth full years of operations for the Authority. The Authority earned \$84,350,975 and \$89,194,635 from use fees, container charges, and maintenance-of-way charges during fiscal years ended June 30, 2010 and 2009, respectively. The Authority's use fees and container charges for the year 2010 shorted the 2009 total by 5.4%. All of the operating revenues and a majority of maintenance-of-way charges are received from the Union Pacific (UP) and Burlington Northern Santa Fe (BNSF) railroads that utilize the Authority's Alameda Corridor (Corridor).

Lastly, the Authority's total revenues and remaining bond proceeds on hand were sufficient to cover debt service payments for the year.

Management's Discussion and Analysis

June 30, 2010 and 2009

Condensed Financial Information

The following condensed financial information provides an overview of the Authority's financial position for the fiscal years ended June 30, 2010, 2009, and 2008:

	Year ended June 30			Change between 2010 and 2009	Change between 2009 and 2008
	2010	2009	2008		
Assets:					
Capital assets, net	\$ 1,921,694,421	1,931,631,381	1,946,229,844	(9,936,960)	(14,598,463)
Bond issuance costs	55,684,482	58,973,941	62,323,123	(3,289,459)	(3,349,182)
Other assets	249,850,358	266,914,705	276,149,033	(17,064,347)	(9,234,328)
Total assets	2,227,229,261	2,257,520,027	2,284,702,000	(30,290,766)	(27,181,973)
Liabilities:					
Long-term liabilities	2,035,429,080	2,014,438,284	1,989,869,990	20,990,796	24,568,294
Current liabilities	67,946,148	60,945,284	59,181,493	7,000,864	1,763,791
Total liabilities	2,103,375,228	2,075,383,568	2,049,051,483	27,991,660	26,332,085
Net assets:					
Invested in capital assets, net of related debt	409,705,122	395,343,921	392,536,493	14,361,201	2,807,428
Restricted for debt service	24,450,400	21,554,835	17,100,805	2,895,565	4,454,030
Restricted for capital projects	1,861,443	7,749,337	9,161,519	(5,887,894)	(1,412,182)
Restricted by Master Trust Indenture	45,220,563	59,438,724	61,549,024	(14,218,161)	(2,110,300)
Unrestricted	(357,383,495)	(301,950,358)	(244,697,324)	(55,433,137)	(57,253,034)
Total net assets	\$ 123,854,033	182,136,459	235,650,517	(58,282,426)	(53,514,058)

Net Assets

Net assets, the difference between assets and liabilities, decreased by \$58.3 million, or 32.0%, and \$53.5 million, or 22.7%, during the years ended June 30, 2010 and 2009, respectively. The primary reason for the decrease in net assets each year is due to the fact the current operating revenues continued to decrease by \$4.8 million and \$8.8 million in fiscal 2010 and 2009, respectively which were not sufficient to cover the interest expense of \$116.6 million and \$114.8 million in fiscal 2010 and 2009, respectively.

The Master Trust Indenture

In conjunction with the sale of project revenue and refunding bonds in 1999 and 2004 (Bonds), the Authority entered into a Master Trust Indenture (MTI) with US Bank, the bond trustee (Trustee), pursuant to which the Authority assigned all of its rights, title, and interest in and to the Alameda Corridor Project, including the receipt of certain use fees and container charges and other revenues known as "Authority revenues" to the Trustee as security for the repayment of the Bonds. Pursuant to the terms of the MTI, the Trustee is required to establish certain funds and accounts and to apply the Authority's revenues for the purposes specifically set forth therein. The MTI establishes debt service funds, debt service reserve funds, construction funds, maintenance and capital reserve funds, and certain other restrictive funds. The MTI also establishes a priority of payments, which restricts the manner, timing, and sequence of transfers into and out of such funds and accounts, and among such funds and

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Management's Discussion and Analysis

June 30, 2010 and 2009

accounts. The MTI requires that the Authority comply with certain operational and financial covenants, restricts the types of investments the Trustee and Authority may make, and requires regular financial reporting and disclosure.

Capital Assets

Net capital assets, which are made up of property, plant, and equipment, decreased by \$9.9 million, or 0.5%, and \$14.6 million, or 0.8%, between 2010 and 2009 and 2009 and 2008, respectively. These decreases are due primarily to the depreciation of capital assets, which were partially offset by the additional costs of ongoing capital projects during the years ended June 30, 2010 and 2009, respectively.

Bond Issuance Costs

No additional bond issuance costs were capitalized in 2010 or 2009. Amortization expense related to bond issuance costs was \$3.3 million and \$3.3 million for fiscal years 2010 and 2009, respectively.

Other Assets

Other assets consist of cash, investments, receivables, condemnation deposits, and prepaid expenses. These assets decreased by \$17.1 million, or 6.4%, during fiscal year 2010, and decreased by \$9.2 million, or 3.3%, during fiscal year 2009 due primarily to depleting of cash.

Long-Term Liabilities

Long-term liabilities increased by \$21.0 million, or 1.0%, in fiscal year 2010 compared to fiscal year 2009 due to \$57.9 million increase in accrued interest on Capital Appreciation Bonds, offset by \$32.3 million bond payments. Long-term liabilities increased by \$24.6 million, or 1.2%, in fiscal year 2009 compared to fiscal year 2008 due to accrued interest on Capital Appreciation Bonds.

Other Current Liabilities

Other current liabilities consist of the current portion of accrued interest and revenue bonds payable, accounts payable, retention payable, right-of-way payable, deferred revenue, other payables, as well as principal and interest currently due on the long-term bonds payable. Other current liabilities increased by \$7.0 million due to an increase of \$6.2 million in principal and interest payments in fiscal year 2010 and increases of \$0.8 million of accounts payable and other liabilities.

Operating Revenues

Use fees and container charges revenues, representing 95.4% and 95.7% of operating revenues, decreased by \$4.9 million and \$8.7 million, or 5.7% and 9.2%, in 2010 and 2009, respectively. The decrease is due to a lower volume of cargo and offset by annual fee increases of 1.5% on January 1, 2010 and 3.5% on January 1, 2009.

Operating Expenses

Operating expenses consist of salaries, benefits, administrative costs, professional services, maintenance-of-way, and depreciation. During the years ended June 30, 2010 and 2009, operating expenses decreased by \$0.5 million, or 1.5%, and increased by \$1.8 million, or 5.3%, respectively. The decrease was due primarily in salaries and benefits due to a staff reduction, Alameda Corridor Engineering Team (ACET) support consistent with project completion and legal expense due to resolution of the RAVS conflict.

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Management's Discussion and Analysis

June 30, 2010 and 2009

Nonoperating Revenues and Expenses

Nonoperating revenues and expenses consist of interest and investment earnings, interest expense, grant revenues, miscellaneous revenues gain and loss on sale of fixed assets, and amortization of bond issuance costs. During the fiscal years ended June 30, 2010 and 2009, interest and investment income decreased by \$2.7 million, or 28.9%, and decreased by \$3.9 million, or 29.6%, respectively. The decrease in interest and investment income is due to a decrease in the average investments held by the Authority, as well as a decrease in the average interest rate earned. Interest expense increased by \$1.8 million in 2010 and 2009. The increase in both years is due to an increase in interest incurred on the 1999 and 2004 Series Bonds. Grant revenues from State Route 47 expressway (SR47) Project increased by \$4.2 million and \$0.2 million, or 644.7% and 37.3%, in 2010 and 2009, respectively.

Capital Assets and Debt Administration

At June 30, 2010 and 2009, the Authority had approximately \$1.9 billion of capital assets and approximately \$2.0 billion of long-term debt outstanding.

Capital Assets

During fiscal years 2010 and 2009, the Authority expended \$11.7 million and \$7.6 million, respectively, on capital project activities. The chart below and on the following page provides a summary of capital project expenditures by type for the years ended June 30, 2010 and 2009.

Additional capital asset information can be found in note 5 to the basic financial statements.

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Management's Discussion and Analysis

June 30, 2010 and 2009

Long-Term Debt

As of June 30, 2010 and 2009, the Authority's total long-term debt in revenue bonds was \$1.663 billion and \$1.699 billion, respectively (net of the current portion amount of \$36.9 million and \$32.3 million).

Additional debt information can be found in note 6 to the basic financial statements.

Other Developments

The Authority's Alameda Corridor Project opened on April 15, 2002. On that date, the Authority commenced operations and began collecting revenues for intermodal containers and rail cars using the Corridor, as authorized in the Use and Operating Agreement between the Authority and the participating railroads (Use and Operating Agreement). Since the Corridor's opening, actual cash collections of nearly \$621.8 million have been received from the railroads. These revenues, combined with remaining interest income, have been sufficient to meet debt service, fund reserve account required deposits, and pay the cost of revenue collections, monitoring, and administrative fees.

The Authority's program manager, ACET, together with the Authority's staff are actively working to complete construction of the remaining original Alameda Corridor Projects and closing out completed projects. Most of the Authority's largest projects either have reached completion or are on the verge of final closeout, with minimal additional outstanding claims or unresolved issues.

The Authority's Governing Board (the Board) modified the Alameda Corridor Project to include the addition of several Corridor-related projects, consistent with the Authority's Joint Powers Agreement, the Use and Operating Agreement, and its bond-related documents. Significant among those projects are the PCH and SR47 Projects. The PCH project was completed in June 2005. The SR47 Project has progressed, and the Authority is currently working in conjunction with Caltrans to advance the Heim Bridge portion of the project. The National Environmental Policy Act (NEPA) Record of Decision was approved on August 12, 2009; the Notice of

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Management's Discussion and Analysis

June 30, 2010 and 2009

Determination was received on August 17, 2009. The final design for replacement of the Bridge was started in October 2009 and completed in October 2010. Construction of the Bridge will be administered by Caltrans and is scheduled to begin in the first half of 2011. Construction duration is expected to be four years. There is a need to finalize project funding for the Expressway portion of the project before ACTA can proceed with design and construction.

On March 2, 2010 ACTA applied to the US Department of Transportation Federal Rail Administration for a Railroad Rehabilitation and Improvement Financing (RRIF) loan of approximately \$550 million. If approved, the proceeds of the loan would be used to restructure portions of ACTA's debt by calling or defeasing certain series and maturities of ACTA's outstanding debt. The intent of the restructuring would be to reduce total debt service during fiscal year 2012 through fiscal year 2019 and transfer some maturing principal to FY2020 through FY2038. If approved, the restructuring would eliminate or minimize the need for potential Shortfall Advances, as defined in note 5 to the basic financial statements, from the Ports of Long Beach and Los Angeles during the next eight years. Without the RRIF loan, or some other similar restructuring of ACTA's debt, the Ports of Long Beach and Los Angeles may be required to provide Shortfall Advances to ACTA totaling an estimated \$80 to \$90 million over the next eight years. The largest Shortfall Advance is expected to occur in order to make the October 1, 2011 debt service payment.

Statements of Cash Flows

Years ended June 30, 2010 and 2009

	<u>2010</u>	<u>2009</u>
Cash flows from operating activities:		
Receipts from customers for services	\$ 83,997,782	93,214,691
Payment to suppliers for goods and services	(9,962,508)	(14,662,132)
Payment to employees	(2,214,664)	(2,327,592)
Net cash provided by operating activities	<u>71,820,610</u>	<u>76,224,967</u>
Cash flows from noncapital financing activities:		
Grants	417,612	1,835,532
Miscellaneous income	525,235	153,917
Net cash provided by noncapital financing activities	<u>942,847</u>	<u>1,989,449</u>
Cash flows from capital and related financing activities:		
Purchases of capital assets	(11,691,995)	(7,633,919)
Sales of capital assets	—	1,345,582
Principal paid on notes and bonds payable	(32,261,088)	(28,039,173)
Interest payments on capital debt	(57,162,924)	(57,157,206)
Net cash used in capital and related financing activities	<u>(101,116,007)</u>	<u>(91,484,716)</u>
Cash flows from investing activities:		
Purchases of investments	(268,966,033)	(314,226,548)
Sales of investments	304,624,290	225,690,815
Interest received	6,903,284	9,813,631
Net cash provided by (used in) investing activities	<u>42,561,541</u>	<u>(78,722,102)</u>
Net decrease (increase) in cash and cash equivalents	14,208,991	(91,992,402)
Cash and cash equivalents, beginning of year	<u>17,088,030</u>	<u>109,080,432</u>
Cash and cash equivalents, end of year	\$ <u><u>31,297,021</u></u>	\$ <u><u>17,088,030</u></u>
Reconciliation of operating income to net cash provided by operating activities:		
Operating income	\$ 49,568,092	53,872,325
Adjustments to reconcile operating income to net cash provided by operating activities:		
Depreciation expense	21,610,672	21,602,318
Change in assets and liabilities:		
Accounts and other receivable	(353,193)	4,020,056
Accounts payable, contract retention payables, and deferred revenue	828,952	(3,359,910)
Prepaid expenses	175,946	48,523
Other liabilities	(9,859)	41,655
Net cash provided by operating activities	\$ <u><u>71,820,610</u></u>	\$ <u><u>76,224,967</u></u>

See accompanying notes to basic financial statements.

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

(1) Organization and Summary of Significant Accounting Policies

(a) *Reporting Entity*

The Alameda Corridor Transportation Authority (the Authority) was established in August 1989 through a Joint Exercise of Powers Agreement (JPA) between the cities of Los Angeles and Long Beach, California. The purpose of the Authority is to acquire, construct, finance, and operate a consolidated transportation corridor; including an improved railroad expressway between the ports of Los Angeles and Long Beach (collectively known as the Ports) and downtown Los Angeles (the route between the two locations has become known as the Alameda Corridor).

The Authority's independent Governing Board has seven members, comprising two members each from the Ports, one member each from the cities of Los Angeles and Long Beach, and one member representing the Los Angeles County Metropolitan Transportation Authority (LACMTA).

As of June 30, 2010, the members of the Authority's Governing Board were the following:

Chairperson – Hon. Gary Delong, Council member, City of Long Beach

Vice Chairperson – Hon. Janice Hahn, Councilwoman, City of Los Angeles

Member – Mr. Don Knabe, Supervisor, County of Los Angeles and Chairperson, LACMTA

Member – Dr. Geraldine Knatz, Executive Director, Port of Los Angeles

Member – Mr. Richard Steinke, Executive Director, Port of Long Beach

Member – Hon. Douglas Krause, Commissioner, Port of Los Angeles

Member – Ms. Susan Wise, Commissioner, Port of Long Beach

The Authority is empowered to explore alternative methods of financing, to develop existing property, and to coordinate other governmental efforts necessary for a consolidated transportation corridor, including the completion of the Alameda Corridor Project (the Project). The Authority may issue revenue bonds to carry out its obligations under the JPA. Such bonds will be payable from revenues generated from the Alameda Corridor, from one or more pledges of revenues from the Authority, the Board of Harbor Commissioners of Long Beach and Los Angeles, from pledges of revenues from other responsible agencies, or from any other legally available funds.

(b) *Program Management Agreement*

In January 1996, the Authority's Governing Board entered into a 10-year Program Management Agreement (Agreement) with the Alameda Corridor Engineering Team (ACET), a joint venture comprising Daniel, Mann, Johnson, and Mendenhall (now DMJM Harris); Moffatt and Nichol Engineers; Jenkins, Gales, and Martinez, Inc.; and TELACU Construction Management, Inc., to provide the broad program management services necessary to assist the Authority in implementing the Corridor. The Agreement calls for ACET to provide the Authority with professional services related to management, engineering, construction support, procurement, coordination, and

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

administration of the Alameda Corridor Project Construction Program. This Agreement was amended twice by the Governing Board and is now extended through December 2013.

(c) ***Use and Operating Agreement***

In October 1998, the cities of Long Beach and Los Angeles, the Authority, Union Pacific Railroad Company (UP), and Burlington Northern Santa Fe Railway Company (BNSF) entered into a use and operating agreement (the Use and Operating Agreement). The Use and Operating Agreement outlines the provisions for the construction, operation, and use of the Rail Corridor (as defined in the Use and Operating Agreement). Specifically, it grants UP and BNSF the right to use the Rail Corridor constructed by the Authority for all Through Train (as defined in the Use and Operating Agreement) movements upon substantial completion in exchange for paying maintenance, operating charges, container charges, and use fees to the Authority. Proceeds of the container charges and use fees will be used to repay the revenue bonds.

(d) ***Master Trust Indenture***

In conjunction with the sale of project revenue and refunding bonds in 1999 and 2004 (Bonds), the Authority entered into a Master Trust Indenture (MTI) with US Bank, the bond trustee (Trustee), pursuant to which the Authority assigned all of its rights, title, and interest in and to the Project, including the receipt of certain use fees and container charges and other revenues known as “the Authority revenues” to the Trustee as security for the repayment of the Bonds. Pursuant to the terms of the MTI, the Trustee is required to establish certain funds and accounts and to apply the Authority’s revenues for the purposes specifically set forth therein. The MTI establishes debt service funds, debt service reserve funds, construction funds, maintenance and capital reserve funds, and certain other restrictive funds. The MTI also establishes a priority of payments, which restricts the manner, timing, and sequence of transfers into and out of such funds and accounts, and among such funds and accounts. The MTI requires that the Authority comply with certain operational and financial covenants, restricts the types of investments the Trustee and Authority may make, and requires regular financial reporting and disclosure.

(e) ***Basis of Presentation***

The basic financial statements of the Authority have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles for state and local governments within the United States of America.

In accordance with GAAP, the Authority’s operations are accounted for as a business-type activity. In this regard, the Authority follows the economic resources measurement focus and the accrual basis of accounting, whereby revenues are recognized when they are earned, and expenses are recorded when they are incurred, irrespective of when paid.

Under GAAP, the Authority has the option of consistently following or not following pronouncements issued by the Financial Accounting Standards Board (FASB) subsequent to

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

November 30, 1989. The Authority has elected not to follow FASB standards issued after that date, unless such standards are specifically adopted by GASB.

(f) Cash and Cash Equivalents

The Authority has defined, for purposes of the preparation of its statements of cash flows, that cash and cash equivalents include deposits, money market accounts, and investments with an original maturity date of three months or less, including investments in the State of California Local Agency Investment Fund (LAIF). The Authority participates in the State of California's LAIF, a non-Securities and Exchange Commission registered investment pool open to all government units in the State of California.

(g) Investments

Investments are stated at fair value. The value of each investment security has been determined based on the published closing price of the security as of June 30, 2010 and 2009. The net changes in fair value of investments, consisting of realized gains or losses and the unrealized appreciation/depreciation on those investments, have been included in interest and investment revenue as shown in the accompanying statements of revenues, expenses, and changes in net assets.

The Authority's investment practices are governed by a board-approved investment policy. The types of investment authorized by the policy are described further in note 2.

(h) Capital Assets

Capital assets purchased or constructed are carried at cost, including capitalized interest during construction. Donated assets are valued at the estimated fair value on the date received. Depreciation is provided over the estimated useful life of each asset and computed on a straight-line basis beginning with the fiscal year after the asset is placed in service. Trench structures, tracks and signals, rail bridge structures, and highway bridge structures include both depreciable and nondepreciable components. The nondepreciable components comprised costs related to demolition, excavation, backfill, utility relocation, right-of-way, and hazardous materials remediation.

Estimated useful lives of classes of capital assets are as follows:

Tenant improvements	3 years
Automotive vehicles	5 years
Office and other equipment	3 – 5 years
Buildings	30 years
Right-of-way and land improvements	Nondepreciable
Revenue assessment and verification system and other software	5 years
Tracks and signal systems	40 years
Highway bridge structures	100 years
Trench structures	100 years
Rail bridge structures	100 years

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

Capital assets acquired with state and local grants are also included in property and equipment. Depreciation on these assets is also included in the results of operations for the year.

(i) ***Restricted Assets***

Certain proceeds of the Authority's revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheets because their use is limited by applicable bond covenants. The revenue bonds' capitalized interest, debt service reserve, indemnity, and revenue fund accounts have been classified as restricted assets, because these accounts are first restricted to the payment of interest and principal on the outstanding revenue bonds. After payment of debt service, remaining revenues, if any, are restricted to the payment of the Authority's other costs and legal obligations (e.g., Port Shortfall Advances) as defined by the Authority's Use and Operating Agreement. The reserve account has also been classified as restricted assets, because the amount in this account is restricted for specific purposes under the Use and Operating Agreement and the revenue bond covenants.

Remaining long-term debt proceeds that have been set aside for capital projects are also reported as restricted assets.

When both restricted and unrestricted resources are available for use, it is the Authority's practice to use restricted resources first, then unrestricted resources as they are needed.

(j) ***Operating Revenues and Expenses***

Operating revenues and expenses generally result from the operation of the Rail Corridor. The principal operating revenues of the Authority are fees assessed to the railroads for use and maintenance of the Corridor. These fees are recognized in the period earned. Operating expenses include revenue collection and other administrative expenses, maintenance, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

(k) ***Compensated Absences***

All Authority employees accumulate time off for vacation and sick leave each pay period. While sick leave hours are accrued at a uniform rate among all employees, vacation accrual is based on length of service. Vacation hours are payable to employees when used at the individual employee's current rate of pay. Any unused vacation remaining at the time of termination is also payable to the employee at his/her then rate of pay. All vacation hours that have been earned but not paid as of June 30, 2010 and 2009 have been accrued in the accompanying basic financial statements. Sick hours are paid to employees when used. The Authority's sick leave policy also provides that employees will be paid 50% of the remaining value of their sick leave hours upon termination. Consequently, 50% of all unused sick hours for each employee totaling \$134,371 and \$149,279 as of June 30, 2010 and 2009, respectively, have also been accrued in other liabilities of the accompanying basic financial statements.

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

(l) Use of Estimates

The preparation of basic financial statements in conformity with GAAP requires that management make estimates and assumptions that may affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(m) Governmental Accounting Standards Board (GASB) Updates

Statement No. 51, Accounting and Financial Reporting for Intangible Assets

This statement provides guidance on the accounting and financial reporting for intangible assets. Various types of intangible assets are identified including easements, water rights, timber rights, patents trademarks, and computer software. The statement outlines under what conditions each type of intangible asset should be classified as a capital asset. The Authority falls under these guidelines and has presented the information in accordance with GASB Statement No. 51. This statement did not have a material impact on the Authority in fiscal year 2010.

Statement No. 53, Accounting and Financial Reporting for Derivative Instruments

This statement addresses the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments. This statement is not applicable to the Authority because it does not have any derivative instruments. This statement did not have a material impact on the Authority in fiscal year 2010.

(2) Cash and Investments

Cash and investments as of June 30, 2010 and 2009 are classified in the accompanying basic financial statements as follows:

	June 30, 2010	
	fair value	
	<hr/>	
Restricted cash and cash equivalents	\$	31,297,021
Restricted investments		204,060,647
		<hr/>
Total cash and investments	\$	<u>235,357,668</u>
		<hr/>
	June 30, 2009	
	fair value	
	<hr/>	
Restricted cash and cash equivalents (current)	\$	17,088,030
Restricted investments		239,700,619
		<hr/>
Total cash and investments	\$	<u>256,788,649</u>
		<hr/>

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

(a) Deposits

At June 30, 2010 and 2009, the net carrying amount of the Authority's deposit account with Bank of America was \$1,036,304 and \$1,556,086, while the corresponding bank balance was \$1,115,159 and \$1,595,505, respectively. Outstanding checks account for the respective differences between the carrying amounts and bank balances. Of the aforementioned bank balance, \$250,000 is covered by the Federal Deposit Insurance Corporation with the excess being secured with collateral of securities held by the pledging financial institution's trust or agent in the Authority's name.

The California Government Code Section 53601 requires California banks and savings and loan associations to secure a public agency's deposits not covered by federal depository insurance by pledging government securities as collateral. The carrying amount of pledged securities must equal at least 110% of the agency's deposits. California law also allows financial institutions to secure agency deposits by pledging first trust deed mortgage notes having a value of 150% of the Authority's total deposits. The collateral must be held at the pledging bank's trust department or other bank acting as the pledging bank's agent in the Authority's name.

(b) Investments

The Authority's investments are invested pursuant to the investment policy guidelines adopted by the Governing Board of the Authority. The objectives of the policy are, in order of priority, preservation of capital, liquidity, and yield. The policy addresses the types of investment instruments and the percentage of the portfolio in which the Authority may invest its funds as permitted by the California Government Code. Generally, investments shall be made in the context of the "prudent investor" rule.

(c) Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in the market interest rates. One of the ways that the Authority manages its exposure to interest rate risk is by purchasing a combination of short-term and medium-term investments, and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations. The Authority monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. The Authority has no specific limitations with respect to this metric.

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

Under provision of the Authority's investment policy, and in accordance with Section 53601 of the California Government Code, the Authority may invest in the following types of investments:

Authorized investment type	Maximum maturity	Maximum percentage of portfolio	Maximum investment in one issuer
Authority bonds	N/A	None	N/A
U.S. Treasury bills, notes, or bonds	5 years	None	None
State warrants or bonds	None	None	None
U.S. local agency bonds, notes, or warrants	None	None	None
Federal agency obligations	5 years	None	None
Callable federal agency securities	5 years	20%	None
Bankers' acceptances	180 days	40	10%
Commercial paper	270 days	25	10
Negotiable certificates of deposit	2 years	30	None
Repurchase agreements	90 days	50	None
State of California Local Agency Investment Fund (LAIF)	N/A	None	None
Time deposits	1 year	15%	None
L.A. County Treasurer Investment Pool	N/A	None	None
Money market funds	None	20%	10%
Medium-term maturity corporate notes	None	30	10
Mortgage- or asset-backed securities	5 years	20	None

The MTI allows for exception of the maximum maturity prescript in the Authority's investment policy. The Authority is allowed a maximum maturity of 10 years for investments in the debt service reserve funds.

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

(d) Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum of a rating by (where applicable) the Authority's Investment Policy, debt agreements, and the actual rating as of year-end for each investment type:

		Ratings as of June 30, 2010								
		Not rated	AAA & AA	AA-	A+ & AA+	A	A-1	A-1+	A- & TSY	Total

(e) Concentration of Credit Risk

The Authority's Investment Policy contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of the total Authority's investments are as follows:

		2010	2009
Federal Home Loan Bank	Federal agency obligations	\$ 46,843,348	53,547,584
Fannie Mae	Federal agency obligations	73,010,164	82,018,019
Federal Home Loan Mortgage Corp.	Federal agency obligations	47,660,152	57,780,736
		<u>\$ 167,513,664</u>	<u>193,346,339</u>

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

(f) Investment in State of California Local Agency Investment Pool

The Authority is a voluntary participant in the LAIF that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the Authority's investment in this pool is reported in the accompanying basic financial statements as cash equivalents at amounts based upon the Authority's pro rata share of the fair value provided by LAIF for the entire LAIF portfolio. The balance available for withdrawal is based on the accounting records maintained by LAIF, which is recorded on an amortized cost basis. Cash can be withdrawn up to \$10 million with one-day advance notice. At June 30, 2010 and 2009, the fair value of the balance of such deposits is \$4,990,621 and \$6,494,557, respectively.

(3) Receivables

Receivables consist of grants, use fees, and other amounts due from private entities. The following provides a summary of the amounts of accounts and other receivables:

	June 30	
	<u>2010</u>	<u>2009</u>
Grants receivable	\$ 4,489,363	—
Interest receivable	983,025	1,283,001
Use fees receivable, net of allowance of \$6,293,407 at June 30, 2009	7,189,640	6,825,498
Other receivables	<u>313,870</u>	<u>324,820</u>
Total	<u>\$ 12,975,898</u>	<u>8,433,319</u>

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

(5) Bonds Payable

The 1999 Series A, B, C, and D Bonds and the 2004 Series A and B Bonds are payable solely from and secured by a pledge of, among other revenues, use fees and container charges to be paid by the UP and BNSF for use of the Project and from shortfall advances to be paid under certain circumstances by the City of Long Beach, acting by and through its Board of Harbor Commissioners, and the City of Los Angeles, acting by and through its Board of Harbor Commissioners. The 1999 Series B Bonds were paid off in October 2006.

As of June 30, 2010 and 2009, the unamortized discount balance on the 1999 and 2004 Series Bonds was \$3,744,572 and \$3,803,364, respectively. Interest on the 1999 Series A and C Capital Appreciation Bonds for fiscal years 2010 and 2009, respectively, amounted to \$18,684,630 and \$13,192,364 and was recognized in the accompanying statements of revenues, expenses, and changes in net assets for the years ended June 30, 2010 and 2009.

(a) 1999 Series A Current Interest Bonds

The Series A Tax-Exempt Current Interest Lien Revenue Bonds (Series A) were issued by the Authority in the aggregate amount of \$444,440,000 on January 1, 1999. Proceeds from the sale of this insured 1999 Series A Current Interest Bonds were used to finance a portion of the cost of design and construction of the Project.

Interest on the 1999 Series A Current Interest Bonds is payable semiannually on April 1 and October 1 of each year commencing April 1, 1999, with principal payments commencing October 1, 2006. The 1999 Series A Current Interest Bonds, which mature on October 1, 2029, bear interest at rates ranging from 4.00% to 5.25%. The balance outstanding on the 1999 Series A Current Interest Bonds at June 30, 2010 and 2009 is \$417,840,000 and \$427,150,000, respectively.

The 1999 Series A Current Interest Bonds due on or after October 1, 2010 are redeemable at the option of the Authority on or after October 1, 2009, in whole or in part at any time, from any moneys that may be provided for such purpose and at the redemption process set forth in the table below, expressed as a percentage of the principal amount of such Series A Bonds, so redeemed plus accrued interest to the date fixed for redemption. There are no immediate plans to exercise the option to redeem these bonds.

Redemption period (both dates inclusive)	Redemption price (expressed as a percentage of principal amount)
October 1, 2009 through September 30, 2010	101.0%
October 1, 2010 through September 30, 2011	100.5
October 1, 2011 and thereafter	100.0

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

(i) **Combined 1999 and 2004 Debt Service**

The Authority's debt service of the 1999 Series A, C, and D Bonds and the 2004 Series A and B Bonds, in aggregate, is as follows:

	Annual debt service requirement		
	Principal	Interest	Total
Fiscal year(s):			
2011	\$ 36,940,692	57,721,159	94,661,851
2012	42,632,075	59,164,124	101,796,199
2013	52,934,411	74,786,675	127,721,086
2014	40,534,305	76,719,311	117,253,616
2015	51,444,513	81,110,988	132,555,501
2016 – 2020	315,059,642	416,286,737	731,346,379
2021 – 2025	451,288,058	461,526,947	912,815,005
2026 – 2030	542,483,699	407,706,134	950,189,833
2031 – 2035	138,399,526	748,880,474	887,280,000
2036 – 2038	31,514,098	271,030,901	302,544,999
Total	\$ <u>1,703,231,019</u>	<u>2,654,933,450</u>	<u>4,358,164,469</u>

Long-term liability activity for the years ended June 30, 2010 and 2009 was as follows:

	Balance, July 1, 2009	Additions	Deletions	Balance, June 30, 2010	Due within one year
Bonds payable:

(j) Restructuring

On March 2, 2010 ACTA applied to the US Department of Transportation Federal Rail Administration for a Railroad Rehabilitation and Improvement Financing (RRIF) loan of approximately \$550 million. If approved, the proceeds of the loan would be used to restructure portions of ACTA’s debt by calling or defeasing certain series and maturities of ACTA’s outstanding debt. The intent of the restructuring would be to reduce total debt service during fiscal year 2012 through fiscal year 2019 and transfer some maturing principal to FY2020 through FY2038. If approved, the restructuring would eliminate or minimize the need for potential Shortfall Advances, as defined in note 5 to the basic financial statements, from the Ports of Long Beach and Los Angeles during the next eight years. Without the RRIF loan, or some other similar restructuring of ACTA’s debt, the Ports of Long Beach and Los Angeles may be required to provide Shortfall Advances to ACTA totaling an estimated \$80 to \$90 million over the next eight years. The largest Shortfall Advance is expected to occur in order to make the October 1, 2011 debt service payment.

(6) Retirement Plan

(a) Plan Description

The Alameda Corridor Transportation Authority Retirement Plan is a single-employer defined benefit retirement plan administered by the California Public Employees’ Retirement System (CalPERS). The plan provides retirement benefits to eligible retirees and their dependents. Employees must retire directly from the Authority under a CalPERS disability retirement or service retirement (age 50 and 5 years of service). Benefit provisions are established through contract with CalPERS and may be amended through Governing Board authorization, agreements and memorandums of understanding between the Authority, its management employees, and unions representing Authority employees.

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

Effective January 8, 1996, the Authority entered into a contract with CalPERS, an agent multiple employer, defined benefit pension plan, and public employee retirement system that acts as common investment and administrative agent for participating public entities within the State of California. The Authority selects benefit provisions by contract with CalPERS and adopts those benefits through Governing Board authorization. CalPERS issues a separate comprehensive annual financial report. The CalPERS annual financial report may be obtained from the CalPERS Web site at www.calpers.ca.gov.

All regular Authority employees who reach 1,000 hours in a fiscal year are eligible to participate in the CalPERS 2.000% at 55 Miscellaneous Defined Benefit Plan. Benefits vest after 5 years of service. Employees who retire at or after age 50, with 5 years of credited service, are entitled to an annual retirement benefit, payable monthly for life, in an amount based on the average of the employee's highest 12 consecutive monthly pay rates during employment that varies from 1.426% at age 50 to a maximum of 2.418% at age 63 for each year of credited service. The system also provides for death and survivor benefits. These benefit provisions and all other requirements are established by State statute and the Authority's Governing Board authorization.

(b) Funding Policy

The contribution requirements of the plan members are established by State statute, and the employer contribution rate is actuarially established and may be amended by CalPERS. Active members in the Plan are required to contribute 7% of their annual covered payroll. The Authority pays this required biweekly employee contribution on behalf of its employees. The Authority is required to contribute 100% of actuarially determined biweekly employer contribution remaining amounts necessary to fund benefits for its members.

The required employer contribution rate was 13.15% and 13.35% for the years ended June 30, 2010 and 2009, respectively. The Authority's covered payroll for the employees participating in CalPERS for the years ended June 30, 2010 and 2009 was \$1,508,965 and \$1,571,214, respectively. Total payroll for fiscal years 2010 and 2009 was \$1,559,381 and \$1,638,715, respectively.

(c) Annual Pension Cost

For fiscal years 2010 and 2009, the Authority's Annual Required Contribution (ARC) was \$198,489 and \$209,773, respectively, which the Authority contributed. The required contribution for 2010 and 2009 was determined as part of the June 2007 actuarial valuation using the entry-age-actuarial-cost method with the contributions determined as a percentage of pay. The actuarial assumptions included (a) 7.75% investment return (net of expenses); (b) projected salary increase of 3.25% – 14.45% depending on age, service, and type of employment; (c) merit increase that varies by length of service; and (d) payroll growth of 3.25%. Both (a) and (b) include an inflation component of 3.00%. The actuarial value of the Plan's assets was determined using a technique that smoothes the effect of short-term volatility in the market value of investments over a three-year period. The Plan's unfunded accrued actuarial liability (UAAL) is amortized using a level-percentage-of-projected-payroll method, on a closed basis over a 20-year period.

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

	<u>Annual pension cost (APC)</u>	<u>Percentage of APC contributed</u>	<u>Net pension obligation</u>
Fiscal year:			
2001	\$ 199,017	100%	\$ —
2002	180,802	100	—
2003	177,695	100	—
2004	185,119	100	—
2005	216,150	100	—
2006	201,711	100	—
2007	178,243	100	—
2008	190,195	100	—
2009	209,773	100	—
2010	198,489	100	—

(d) Actuarial Methods and Assumptions

The actuarial methods and assumptions used are those adopted by CalPERS' Board of Administration, in accordance with the parameters of GASB Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*. The required employer contribution rate was 13.15% and 13.35% for the years ended June 30, 2010 and 2009, respectively.

(7) Other Postemployment Benefits (OPEB)

(a) Plan Description (OPEB)

The Alameda Corridor Transportation Authority Retiree Healthcare Plan is a single-employer defined benefit healthcare plan administered by the Authority. The plan provides healthcare benefits to eligible retirees and their dependents. Employees must retire directly from the Authority under a CalPERS disability retirement or service retirement (age 50 and 5 years of service). Benefit provisions are established and may be amended through agreements and memorandums of understanding between the Authority, its management employees, and unions representing Authority employees.

The Authority provides retiree medical benefits through the California Public Employees' Retirement System Healthcare Program (PEMHCA). The Authority contributes, for eligible retirees and their dependents, using the Los Angeles Regional Kaiser rate structure at 5% of the active member contribution amount multiplied by years in PEMHCA (increase each year not greater than \$100 per month, total amount not to exceed the active amount). The Authority joined PEMHCA in 2000 for all bargaining units, and contributes up to the Kaiser premium based on coverage level for active employees.

The Authority participates in the California Employers' Retiree Benefit Trust (CERBT) Fund, which is administered by the CalPERS. CERBT is a tax-qualified irrevocable trust organized under Internal Revenue Code Section 115 and established to prefund retiree healthcare benefits. CERBT, an agent multiple-employer trust, issues a publicly available financial report including GASB Statement

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, disclosure information in aggregate with the other CERBT participating employers. That report can be obtained from the CalPERS Web site at www.calpers.ca.gov.

(b) Funding Policy (OPEB)

The contribution requirements of the plan members and the Authority are established by and may be amended by the Authority. The Authority prefunds plan benefits through the CERBT by contributing at least 100% of the ARC.

The ARC is an amount actuarially determined in accordance with the parameters of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefit Other Than Pensions*. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

For fiscal year 2010, the Authority contributed \$73,025 to the Plan, including \$3,025 for current benefit payments and \$70,000 to prefund Plan benefits.

(c) Annual OPEB Cost and Net OPEB Obligation

The following table shows the components of the Authority's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the Authority's Net OPEB obligation:

Annual required contribution	\$	(73,669)
Interest on net OPEB asset		31,280
Adjustment to annual required contribution		<u>(38,426)</u>
Annual OPEB cost		(80,815)
Contributions to irrevocable trust		70,000
Benefit payments		<u>3,025</u>
Decrease in net OPEB asset		(7,790)
Net OPEB asset, beginning of year		<u>403,608</u>
Net OPEB asset, end of year	\$	<u><u>395,818</u></u>

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

The Authority's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB asset for fiscal year 2010 and the two preceding years were as follows:

<u>Fiscal year ended</u>	<u>Annual OPEB cost</u>	<u>Percentage of annual OPEB cost contributed</u>	<u>Net OPEB asset</u>
June 30, 2008	\$ 137,000	329%	\$ 314,000
June 30, 2009	(3,608)	2,150	403,608
June 30, 2010	80,815	90	395,818

(d) Funded Status and Funding Progress (OPEB)

The funded status of the plan as of June 30, 2009, the plan's most recent actuarial valuation date, was as follows:

Actuarial accrued liability (AAL)	\$ 560,749
Actuarial value of plan assets	<u>406,303</u>
Unfunded actuarial accrued liability (UAAL)	<u><u>\$ 154,446</u></u>
Funded ratio (actuarial value of plan assets/AAL)	72%
Covered payroll (active Plan members)	\$ 1,594,964
UAAL as a percentage of covered payroll	10%

Actuarial valuations of an ongoing plan involve estimates of the value of expected benefit payments and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the ARCs of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

(e) Actuarial Methods and Assumptions (OPEB)

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2009 actuarial valuation, the entry age normal actuarial cost method was used. The actuarial assumptions included a 7.75% investment rate of return (net of administrative expenses),

ALAMEDA CORRIDOR TRANSPORTATION AUTHORITY

Notes to Basic Financial Statements

June 30, 2010 and 2009

which is the expected long-term investment return on CERBT investments, a 3.00% general inflation assumption, an annual pre-Medicare eligible medical cost HMO trend rate of 10.10% for 2010 (9.10% for Kaiser) decreasing to 4.50% after 7 years (the post-Medicare eligible medical cost trend rate started 0.30% higher for 2010), and an annual pre-Medicare eligible medical cost PPO trend rate of 10.80% for 2010 decreasing to 4.50% after 7 years (the post-Medicare eligible medical cost trend rate started 0.30% higher for 2010). The actuarial value of assets is based upon market value, but investment gains and losses are spread over a 5-year rolling period. In addition, the actuarial value of assets can never be less than 80% nor more than 120% of market value. The June 30, 2009 UAAL is amortized as a level percentage of projected payroll over 15 years on a closed basis. Future gains and losses and assumption changes will be amortized over 15 years; plan amendments and method changes will be amortized over 20 years.

(8) Commitments and Contingencies

The Authority is subject to claims and lawsuits arising in the normal course of business. Such claims are routinely evaluated by the Authority's legal counsel. Management may make provisions for probable losses if deemed appropriate on advice of legal counsel. To the extent provisions for damages are considered necessary, appropriate amounts are reflected in the accompanying basic financial statements. It is the opinion of the Authority's management, based on consultation with legal counsel, that the estimated liability for unreserved claims and suits will not have a material impact on the Authority's basic financial statements.

The Authority is also exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors, and omissions; and natural disasters for which the Authority carries commercial insurance. In each of the past three fiscal years, the Authority has experienced no losses that have not been covered by existing insurance policy limits.

The Use and Operating Agreement with the railroads provides for payment by the railroads to the Authority for cargo that moves into or out of Southern California by rail. The Authority captures revenues from cargo loaded on rail at Port facilities or trucked between nearby rail-loading facilities and the Ports and invoices the railroads accordingly. The Authority had not been paid or had been underpaid by the railroads for certain cargo, which the Authority believed was subject to payment of use fees or container charges under the terms of the Use and Operating Agreement. The Authority resolved the dispute with UP in May 2009 and with BNSF in August 2009. New implementation rules were agreed to by railroads and each railroad made a settlement payment to the Authority. Reconciliation invoices rendered since resolution of the disputes have been paid in full.

As a recipient of federal and state grant funds, the Authority is subject to periodic audits and compliance reviews by, or on behalf of, the granting agencies to determine if the expenditure of granted funds has been made in accordance with grant provisions. Such audits and compliance reviews could result in the potential disallowance of expenditures claimed by the Authority. The Authority's management believes that the Authority has complied with the terms of its grant agreements and that the possible adverse effects, if any, of disallowed grant expenditures that may be determined by the granting agencies upon the Authority would not be material to the Authority.
